Référence:

13. Les impacts sociaux

Demande ou Question:

13.1 Quelle est l'augmentation prévue des taxes municipales par rapport à l'augmentation des coûts de mise en place ou de remplacement des services municipaux (eau potable, routes etc.) ?

Réponse:

The taxation agreement negotiated between Cacouna Energy and the Municipality of Cacouna, is expected to result in a very significant net revenue gain for the municipality. The elected municipal representatives will manage the budget according to municipal priorities.

It is anticipated that the tax revenue received from Cacouna Energy will enable the village to either lighten the tax burden or improve community facilities and services.
