
BAPE-2.14

Référence:

2. La sécurité terrestre et maritime et la planification des mesures d'urgence

Demande ou Question:

- 2.14 Pourriez-vous nous fournir un plan d'urgence utilisé dans un autre terminal méthanier ?

Réponse:

Cacouna Energy is unable to provide a copy of an Emergency Response Plan for another LNG terminal.

In response to this question, a request for such a plan was made to two major North American LNG terminals. In each case, management declined to make their plans available to us, citing current U.S. government-mandated confidentiality requirements related to Critical Energy Infrastructure. As well, such plans are highly site-specific, and are viewed as business confidential.
