Subject: Natural Gas Pipeline Confirmation

---

Sir,

Gaz Métro has completed the analysis of your natural gas needs for your new plant in the Bécancour industrial park (106 000 m<sup>3</sup>/hr at a pressure of 3550 kPa) and can now confirm, based on the information given and known at this time, that we will be able to feed your plant directly from the existing underwater pipeline of 508 mm.

Hoping everything to your satisfaction we remain at your disposal to provide you any further information on the supply of natural gas in Bécancour

Yours truly,

Richard Demers  
Advisor, Sales Major Industries  
Montreal Business Office
