Re: Support for the Quebec uranium industry

To the Commissioners:

I support the Quebec uranium industry because:

I care about the fate of the planet, encourage the development of clean nuclear energy.

I believe the nuclear industry is part of a comprehensive solution to global warming and

is a smart alternative to fossil fuels.

Uranium industry Contributes to Québec's economic growth.

Today, mining uranium is one of the safest types of mining in the world.

Nuclear technology is used for peaceful, civilian purposes, playing a role in people's daily life

and contributing to their well-being.

I am expressing my opinion as a private citizen and would like to be heard.

I am also a shareholder for many years of a Uranium public company Strateco Resources,

would like to have my investment protected.

The moratorium and study of the uranium sector should be reconsidered in light of existing federal regulations and safety procedures, or completed in a timely manner to minimize uncertainty for existing claim holders.

My name: Marta Kallianos

My status (private citizen or representative of an organization): Private Citizen

My address: 63 Barrett Crescent Ajax, Ontario L1T 2C5

My email: angelheart@hotmail.com

I wish to express my views at the BAPE public hearings (yes/no): no
