**Objet:** [POLLURIEL (Bayes)] Stop the Mining

6211-08-012

Dear Sir or Madam:

The very existence of all species on life requires that we stop using any nuclear energy. Humankind does not have a clue on how to control the material from mining to disposal.

Everything on the surface of this planet is interconnected Uranium upsets the balance and will hasten the large die off of species. We are one of the species and at some unknown point we will pass the tipping point and humans will also become extinct.

For the sake of all the children of every remaining species, please do not mine anything that will cause damage for untold years.

Thank you for your time and consideration,

Elayne Lappi
