Subject: Nunalimmini Uumajulirijiit Katutjiqatigiinninga Kangirsualujjuami opinions

Concerning Uranium danger to the wildlife in our region, We live on a wild life & Sea mammals and use the pelts as clothings. We know that Uranium would ruin everything in our land. We live in a very expensive place, we value our traditional way of life and our younger generation will use the land. We do not agree with the project of Uranium mining in Kangirsualujjuaq.

Sincerely the local Nunalimmini Uumajulirijiit Katutjiqatigiinninga Kangirsualujjuami
