

A Brief presented to:

The '*Bureau d'audiences publiques sur l'environnement*'

As part of the investigation and public hearing on the issues associated with the uranium industry in Quebec.

October 30th, 2014

Presented by:

Jamie-Lee McKenzie

I just simply want to say that I do not agree or support any mining especially uranium and rare earths. I love my hometown of Kipawa, Quebec and I do not want to see it destroyed by the many risks with mining. Please do not remove the moratorium on uranium mining and also there should be a moratorium on rare earth mining as well all throughout the province of Quebec and Canada.
