**Objet:** [POLLURIEL (Bayes)] uranium mining ban

To Whom It May Concern;

Please maintain Quebec's ban on mining uranium. Not only are the short and long-term effects of using nuclear material seriously non-sustainable, including transport, natural disasters and storage of spent fuel, but yours - and the world's - future requires that all energy generation resources be applied to renewable fuels. Perhaps the companies that hope to mine the uranium could be persuaded to branch into the renewable energy field instead.

Thank you for Your Consideration,  
Helen Logan Hays
