

Projet d'aménagement du parc éolien Des
Moulins à Thetford Mines, Kinnear's Mills
et Saint-Jean-de-Brébeuf :

Sept. 30, 2009
Kinnear's Mills-@

Dear Sir / Madame ,

My name is Helen Lowry , I am a
resident of Kinnear's Mills since 1965. I
am writing to express that I do not
agree with the proposed windmill park
project for the following reasons.

Firstly I believe that this area is best
kept as it is for the benefit of the
residents who live here , as well as for
the people around the province of Québec
and beyond who visit this area. Kinnear's
Mills (QC) has been declared an historical
site , a place people visit to learn about
its history but who also enjoy the natural
beauty , the exceptional panoramic views ^{Albany}

of the country side in all seasons. This is a quiet and peaceful area, a place which fosters solitude and tranquility.

This area is home to several species of wild animals both large and small, namely white tailed deer, coyotes, raccoons, foxes to name a few plus several kinds of birds and different varieties of plants and trees. It is an ecosystem which we are part of that deserves to be valued and preserved for future generations.

Natural, "wild", landscapes and places are becoming fewer and fewer as pressures to alter the land increase. It is our responsibility to balance the needs of change with the need to preserve places of natural beauty where nature flourishes for the benefit

of all.

The proposed project I believe would
change forever the natural beauty, the
landscape and way of life of all
inhabitants, negatively impacting
on the quality of life of the people,
wildlife, plants and trees of this
area.

Sincerely,
Helen Henry.

Helen Henry
