246**DC14**Projet d'établissement d'un lieu d'enfouissement
technique à Danford Lake**Alleyn-et-Cawood****6212-03-112**

Good afternoon Renee:

I wish to rebut Mr. Denis Rouleau's rebuttal of what I said at the BAPE Hearings.

Yes, I was in error when asked by the Commissioner when the by-election was that I rejoined council. I had stated October 2005..it was October 2004.

My first meeting with council was in November 2004 and going with the information that I had at the time in regards to the landfill (which was obviously not very much) I did 2nd a resolution allowing the LDC to commence the Environmental Impact Studies.

However, I would like to repeat that at this time I still had no idea as to the magnitude of this landfill.

It was about October 2005 that I truly became aware of the size of this project and voiced my opposition to it.

Mr. Rouleau can make all of the assumptions that he wants to about when I became aware of the size of this project but that is just his assumption. I know when, where and how I became aware of the size of this project and it certainly was not from himself or Council. I found out from the local residents who were taking a stand opposing the site and asked me why I was for it...after explaining myself to them they educated me on the size and voiced their concerns to me which were all valid concerns to me.

Thank you for allowing me the opportunity to clarify these issues.

Charlene Scharf
Councilor Municipality of Alleyn-Cawood
