

This letter is addressed to the B.A.P.E, and whoever else is involved in making this project by Mr. Denis Rouleau ( LDC ) a reality .

If you knowingly inflict pain and suffering on others, or affect ones quality of life,

You will be dealt with according to LAW , no one is above the law, not even Gov't,. Officials.

This letter is regarding Mr. Denis Rouleau's plan, to put a landfill site, in the municipality of Alleyn and Cawood., against the majority of the tax payers wishes, and many others, you know, because you were told at the B.A.P.E., Hearings being held at the moment.

One such statement that Denis Rouleau told you at these meetings, and in his plan, is that ,

THERE ARE NO RESIDENCES WITHIN 2 KM. OF THIS PROPERTY,

Which you know to be false , Mr. Pelletier told you he owned a cottage downstream from were they are pumping waste and toxins into.

I told you that the TANNER FARM ( residence ), beside the project, The GRAVELINE FARM, (residence), across the highway 301, from the project,. the two Beaugard Farms used weekends, close by, The 5 mile beaver club 20 members ( downstream from proposed project.) , and others.( W.T outfitters, The Bears Den, The Wilson cottage,,etc. )

If you know that Denis Rouleau made false statements, then you would also be inflicting pain , suffering , and affecting ones Quality of life.

I have, and my ancestors have fished, hunted ,canoed, and walked these property's long before Mr. Denis Rouleau has ever set foot on them .

I am also a proud ABORIGINAL, with rights.

This Project must be stopped now, action has to be, and will be taken if this continues, I and others will also have to let the Population know what is going on, behind there backs.

I will also be looking into how close they cut the trees, beside the river bank, which you were also told was to close.

Your's sincerely.;

Ken Molyneaux
