

To Whom It May Concern:

Our families, the Mayer's, Miljour's, the Chartrand's and the Merrifield's are amongst the founding families of Alleyn and Cawood.

Our permanent residence is located approximately 8 km from the LDC proposed landfill, in the Village of Danford Lake.

We appreciate and respect our environment. During summer months we spend a great deal of time outside. Of course, we hear the trucks that drive by on Hwy. 301, but they don't bother us.

We understand that the LDC project will bring even more trucks on 301, but it will also bring jobs and economic advantages that our community needs in a bad way.

Knowing that our trench landfill, like every other trench landfill in Quebec, must close before 2009, our garbage needs to go somewhere, we support the LDC project.
