

**Brief No. 2** to the Commission of the Bureau d'audiences publique sur l'environnement concerning the proposed landfill at Danford Lake.

Submitted by:

Bob Wilson

Born in Danford Lake (4<sup>th</sup> generation)

A cottage owner on the Picanoc River

A ratepayer in Alleyn & Cawood.

June 2007

### **Executive Summary:**

This brief provides information on major areas of concern regarding landfills plus provides, in point form, comparative information on landfill versus plasma gasification.

1. An 8-page report by the **Regional Health Council of Montreal** and Maisonneuve-Rosemont Hospital of Montreal concerning an **elevated incidence of cancers** of the stomach, liver, prostate, and lung among men, and stomach and cervix/uterus among women of families living **near a large landfill in Montreal, Quebec**. Details can be found in the attached report "Landfill Study Montreal 1995".
2. A 6-page summary report by the Environmental Research Foundation on the long-term problems associated with Landfills. See attached report "Landfills Summary TGM 060227 dated Feb. 27, 2006
3. A 2-page data sheet providing a comparison between the proposed landfill and Plasco plasma gasification. See attached data sheet "Comparison Landfill versus Plasma Gasification" data sheet Page 1 and 2".
