**Objet:** Proposal for Extensive Dredging of Oka Ferry Channel.  
For the attention of Mme. Monique Gelinas.

Dear Mme Gelinas,

We wish to record our strong opposition to the proposal for extensive dredging of the Oka Ferry channel. We fear that this would lead to the use of larger ferries, with resulting increase in traffic. This would be detrimental to the lives of the citizens of this community. The ferry as it stands is perfectly adequate , and there is absolutely no need for anything larger or more elaborate.

We add our voices to those of the many residents of this community who oppose the extensive dredging plan.

Sincerely,

Margaret and David Clayton

PS. Thank you so much for your help. Trust you will receive this! David Clayton.
